

## Accent Lights with VLO

Variable Lumen Output (VLO) technology allows you to easily switch between three lumen outputs without mechanically adjusting the settings on the fixture. The magnet-controlled switch allows the fixture to remain closed, eliminating the increased failure risk or long-term reliability concerns associated with a mechanical adjustment.

### Our Finest Integrated LED Technology

**Custom optics**  
assures no halos or scallops,  
just superb center-to-edge  
uniformity for clean, clear light.

**The switch**  
is fully protected  
from moisture by  
being potted on  
board the driver.

**9-15 volt**  
operating range to assure  
consistent light output  
throughout a run.

**Integrated, fully sealed**  
and encapsulated fixtures keep  
all critical components protected  
against the outdoor elements.

**6,000 volt surge protection**  
guards against power irregularities that can  
be a hazard to LED landscape lighting.

Backed by the Kichler Lighting industry-leading 15-year warranty.

### VLO makes it easier than ever to design, install and service landscape lighting.

- Create more customized landscape designs while carrying less fixtures in your inventory.
- Quickly adjust the lighting design during the initial installation for the right amount of light output — or years down the road as the landscape application needs changed.
