Dark Sky Accessories

Help fight light pollution with Kichler® Dark Sky Accessories. Made of lightweight, powder coated aluminum, our Dark Sky panels easily slide behind your light fixture's existing glass. During the day, your light fixture may look conventional. Yet, at night, the panels prevent light from passing through its glass – only to emit a subtle downlight from the fixture's open bottom.

All Fixtures shown here can be retrofitted with a Dark Sky Adaptor Panel. Panel sets consist of enough panels to retrofit one fixture. Installation instructions are included.

While we believe these panels will work for most current laws, Dark Sky and Turtle Protection legislation may have specific parameters that need to be met for a municipality or region. It is advisable to review the legislation to ensure compliance is met with these product additions.
