Inspired by vintage industrial shipping crates, Moorgate™ fixtures feature an oversized X pattern in a rich black and brass finish combination. Knurled sockets in a contrasting finish bring a premium detail to this substantial, yet simple, statement piece.

“ Transitional designs are the perfect blend of traditional and contemporary. With a wide-ranging appeal that is both elegant and timeless, transitional always stays fresh-looking and fits comfortably in a wide-range of decorating styles. ”

- Kichler Design Team
