**Weathered with time.
Refined into something original.**

A small crew of local furniture makers bring out the inherent beauty in each piece of wood, removing some imperfections while highlighting others. You'll see the marks of time — weathered corners, patinaed finishes and authentic nail markings that speak to a life well spent. One by one, and all by hand. Their dedication allows us to build distinctive lighting fixtures that make an uncommon statement in any home — homes that will bring the next generation of storytellers to life.
