

The sturdy design of the Kichler C-Series line delivers years of quality light performance.

Exceptionally Engineered

The C-Series line provides 120V-277V universal voltage from one fixture and contains built-in surge protection (4kV). The durable knuckle features clean-cut, deep ridges for a stronger engagement and comes equipped with vandal-resistant hardware for extended durability. And, our sleek designs feature die-cast, all-metal housings finished with a polyester powder coating that stands up to environmental demands.

Designed for Performance

Our C-Series LED fixtures feature the latest in LED technology with center-to-edge optics for a precise beam spread that is uniform and crisp. Our 3-step binning process also assures the color you choose – 3000K or 4000K – is consistent from fixture to fixture.

Sleek and coordinating designs

Thick-gauge, cast metal housings

Textured powder coat finish

Center-to-edge optics

These integrated fixtures come in a variety of beam spreads.

Use the 15-degree beam spread for tall, thin applications, 40-degree for medium height and width elements, and 55-degree for short, wide beams on broad structures or trees.
