Fabric shades have a soft look that never seems to go out of style, and the Jolana Collection takes inspiration from these refined classics. A delicately textured fabric shade contrasts decoratively against the smooth pill-shaped metal framework. Inside the arms, LED clusters radiate light, creating a beautiful glow.

The Shima Collection is a study of contrasts: contrasting finishes and designs. The soft contemporary pendant features a body that appears to be shifted from the center, for a subtle nod to art deco design. The soft white diffuser glows softly from within using an integrated LED light.

Calming and reflective, the Korfu Collection finds inspiration from the night sky. Saturn's rings. A shooting star. These celestial standouts come together here, where an acrylic ring appears to float around a central Chrome cylinder. The effect is both stunning and sculptural.

In the 1950s, lighting truly became part of a home's décor. Space age and dynamic shapes took center stage. With the Kizette Collection's delicate profile, we see the past coming to light.

Clean, sleek lines create a sculpture while the integrated LED lighting modernizes the look.

Dutch modern art of the 1920s combined the abstract with the geometric to create asymmetrical masterpieces. The iconic look is replicated here in a mirror that delivers both shape and texture. Clear Cubic Zirconia chips form the illuminated cross, while the Matte Black frame gives the piece structure. Kemena, a beautiful addition to bathrooms, entryways – anywhere.
