KICHLER'S FANS ARE THE BEST!

“ Another great Kichler product! Having acquired this fan online, I was not sure about the materials and how it looked in person. The moment I "deboxed" and started putting this fan together, I knew it was another extremely great quality product from Kichler. This fan is huge, the blades are metal and can seriously put off some breeze. I also love the fact that if you are using it for outside and do not need the light kit, they already have a metal cover to go over it. Plus the wall mounted remote and switch is really convenient. I cannot praise Kichler enough, 2nd product from them and many more to come! ”
